The image shows the 'Options' dialog box in Jamovi, which is used to configure the software's appearance and behavior. The dialog is organized into several sections: 'Results', 'Plots', 'Import', 'Updates', and 'Screen Capture Tool'. Each section contains various settings that can be adjusted. The settings are as follows:

- Results**
 - Number format: 2 dp
 - p-value format: 3 dp
 - References: Hidden
 - Syntax mode: ☐
- Plots**
 - Plot theme: Default
 - Color palette: jmv
- Import**
 - Default missings: NA
- Updates**
 - jamovi is up-to-date: Check again
 - Automatically install updates: ☒
- Screen Capture Tool**
 - Developer mode: ☐
