

## 記述統計

The screenshot shows a statistical software interface with a top navigation bar containing '変数' (Variables), 'データ' (Data), '分析' (Analysis), and '編集' (Edit). Below this is a toolbar with icons for '探索' (Explore), 't検定' (t-test), '分散分析' (ANOVA), '回帰分析' (Regression), '度数分析' (Frequency), and '因子分析' (Factorial). The '分析' (Analysis) tab is selected, and a dropdown menu is open, highlighting '記述統計' (Descriptive Statistics). The main workspace is titled '記述統計' (Descriptive Statistics) and features a search bar on the left containing 'ID'. On the right, there are two panels: '変数' (Variables) and 'グループ変数' (Grouping Variables). The '変数' panel contains '得点' (Score), which is highlighted with a dashed orange box and labeled '変数欄に「得点」' (Score in the variable field). The 'グループ変数' panel contains '条件' (Condition), which is also highlighted with a dashed orange box and labeled 'グループ変数は「条件」' (Grouping variable is 'Condition'). A right-pointing arrow icon is visible in the top right corner of the workspace.
